ALL YOU NEED
FOR ALIGNERS

ixion[™]
Instruments

IXION ALIGNER PLIER **TORQUE**

IX887

Creates a horizontal indentation,
0.75mm x 1.5mm,
for individual root torque.

IXION ALIGNER PLIER **ROTATION**

IX888

Creates a vertical indentation,
1.5mm x 0.75mm,
for individual tooth rotation.

IXION ALIGNER PLIER **RETENTION**

IX889

Creates a circular indentation, 1mm
in diameter, for increased retention in
the retainer and aligner system.

IXION ALIGNER PLIER SCISSORS

IX892

These lightweight scissors are used for removing excess thermoformed material, and for the smooth trimming and shaping of aligners. Their streamline design, graduated curve and tapered beak makes for easy use – even in tight areas.

IXION ALIGNER PLIER TEAR DROP

IX890

Creates a hook in the gingival margin for the use of elastomerics.

IXION ALIGNER PLIER HOLE PUNCH

IX891

Creates a circular cutout to allow bondable attachments to be used.

IXION ALIGNER PLIER **INSTRUMENT SET**

IX886

The popular choice for premium instrumentation of orthodontists globally. This kit includes all 5 of our Ixion Aligner Pliers in a metal Ixion branded presentation tin.

PHOTOGRAPHY FOCUS

More info about photography intraoral mirrors, retractors and contractors can be found on website www.medeq.ee

DB ORTHODONTICS **INTERPROXIMAL STRIPPING (IPR)**

An innovative Interproximal Reduction system that makes interproximal enamel removal / stripping safer and more accurate without creating sharp corners or subgingival ledges.

Airo Strips Intro pack
DB05-0908 pcs

Designed for use with all orthodontic treatments, these strips curve and fly along the natural contours of the teeth to avoid cutting lips and gums, prevent excessive enamel removal and to maximize patient comfort.

-  Yellow 0.07mm Single-Sided
DB05-0900
-  Red 0.12mm Double-Sided
DB05-0901
-  Dark Blue 0.15mm Double-Sided
DB05-0902
-  Green 0.20mm Double-Sided
DB05-0903
-  Clear 0.10mm Single-Sided
DB05-0904
-  Cyan 0.15mm Single-Sided
DB05-0905
-  Purple 0.25mm Double-Sided
DB05-0906
-  Brown 0.30mm Double-Sided
DB05-0907

INCREMENTAL **THICKNESS GAUGE**

DB05-0915

Made from Stainless Steel -
0.1, 0.2, 0.25, 0.3, 0.4, 0.5 mm.
Measure the exact amount
of interproximal reduction
achieved.

CERAMIC BUTTON FREDDY™ CURVED BASE

DB22-0493

The Freddy™ ceramic button is the perfect clear utility button for all aesthetic appliances.

- Works lingually as well as labially
- Mesh structure of base makes a strong bonding
- Bonds well with most common adhesives
- Anatomy and size base fits all teeth
- Enough space around tie wing for elastics
- Maintains the transparent look with aligners as anchorage for elastics

LINGUAL BUTTON AND LINGUAL LOOP

Bondable lingual buttons are used in dental movements such as retractions, rotations, pull and anchoring systems. This retains the elastic, wires, chains and ligatures.

Lingual button curved base
42-0010-0000

Lingual button flat base
42-0020-0000

Lingual loop for curved teeth

42-0030-0000

Lingual loop for flat teeth

42-0040-0000

GC ALIGNER CONNECT

90-4100-0000

GC Aligner Connect was specifically developed for orthodontic aligner attachments. GC Aligner Connect features enhanced aesthetics that imitate enamel color shades and high durability, which limits long term wear or potential detachment during treatment.

GC ORTHO CONNECT

90-1100-0000

A new orthodontic light-cured adhesive for brackets and bondable buccal tubes.

GC ORTHO CONNECT FLOW

90-3100-0000

Light cure orthodontic adhesive for lingual retainers, stops and aligner attachments – easy to handle. GC Ortho Connect Flow's **primer is integrated** into the paste, allowing to save valuable time in the bonding process.

ORCHESTRA INTRA AND EXTRAORAL **ELASTICS**

Our range of intra and extraoral elastics are made from the highest quality medical grade latex.

The stated force corresponds to the force three times its original listed diameter.

Intraoral elastics are packaged by 5000 pcs.

Extraoral elastics are packaged by 2500 pcs.

Each bag contains 1 insertion plastic instrument.

Latex free elastics are listed on the chart below.

INTRAORAL				EXTRAORAL
SIZE/FORCE	2.5 oz/70.88 g	4.0 oz/ 113.4 g	6.0 oz/170.10 g	8.5 oz/ 240.98 g

Energy Chain's unique patented thermosetting resin formula provides superior elastic memory following initial stretch over competitor's plastic chain.

The tough elastic chain material is stain-resistant, tasteless, non-toxic, and latex free. It delivers a uniform continuous force over longer periods of time in comparison to other elastic chains.

ORTHO EASE ALIGNER CHEWIES

DB04-4231 Plain

DB04-4231 Mint

Chewies help the patient seat the aligner into place securely and comfortably. They also stimulate the periodontal ligaments to aid effective tooth movement. Each package contains 10 boxes of 2 chewies in a hygienic sealed bag.

ORTHO EASE ALIGNER RETRIEVERS

DB04-4220 White

Remove aligners and retainers quickly and comfortably with easy to use retrievers. Each package contains 10 retrievers in a hygienic sealed bag

MYOCLEAN ANTIBACTERIAL CLEANING TABLETS FOR DENTAL APPLIANCES

Mouthguards are a perfect breeding ground for bacterial growth. Bacteria get trapped in crevices and pores of the material and if not cleaned properly, the germs can flourish and multiply. Myoclean™ keeps your mouthguard hygienically clean and removes stains, while leaving it with a fresh minty taste.

INSTRUCTIONS FOR USE:

Add 1 tablet to a glass of lukewarm water. Leave the appliance to soak for a minimum of 15 minutes.
