

COMBINING TMJ, SDB & MYOFUNCTIONAL ORTHODONTICS 4-DAY EUROPEAN SUMMIT 2023

1st - 4th November 2023

For more than 30 years, Myofunctional Research Co. (MRC) has recognised breathing disorders as the major cause of malocclusion, poor jaw growth and TMJ Disorder. By effectively changing the way orthodontics for children is performed, the Myobrace® myofunctional orthodontic system, by MRC, fundamentally delivers airway and habit correction to resolve orthodontic problems.

A complete training program for orthodontic & dental professionals.

**MRC Head Office & Training Centre
Waalwijk, the Netherlands**

- Preliminary Program -

LEARNING OUTCOMES

- Practical aspects of the implementation of myofunctional treatment in your practice.
- Understanding the development of occlusion and function.
- Diagnosis of soft tissue dysfunction, Sleep-Breathing disorders, Tongue Tie and Malocclusion.
- An extensive presentation of treatment possibilities with MRC's treatment systems Myobrace, Myosa and TMJBDS.
- Effectively educate parents and patients to achieve consistent results.
- Myofunctional Orthodontics - treating the causes rather than the symptoms of malocclusion.
- Evaluation & discussion of cases.

Airway correction for children and adults.

Immediate diagnosis and treatment of TMJ Disorder.

Myofunctional Orthodontic treatment for ages 3-15.

myobrace®

myosa®
